

## KÜNSTLERIN GABRIELE BREU

*Gabriele Breu*  
PHOTOGRAPHY AND DIGITAL ART

### **My love has always belonged to photography**

At the end of 2019, after 35 years of living in Munich, I moved to the beautiful Chiemgau.

Like many people, the lockdown caught me here completely unexpectedly. Still a stranger to my new home, I spent a lot of time alone with myself. I started to deal with photography again and tried my hand at digital image editing. I took online courses, and when I became aware of the limitless and grandiose possibilities of digital image processing, I really caught fire.

In July 2022 I decided to realize my long cherished and greatest wish, to become a freelance artist. Since this time I have taken part in small and large exhibitions in Germany, South Tyrol and Switzerland.

I also travel around the world a lot, to take inspiration and photographs for my art.

With one eye always in the moment, unique photographs are now created that reflect my perspectives and individual perceptions.

If this forms my very own, intuitive art, which conjures up a smile when viewing, awakens fantasies and dreams and gives rise to the desire to walk around in the pictures, I am very very happy.

Without thoughts, I know and feel that there is an endless amount to learn, find and experience in pictures - much more than we ever guess.

Such works let us arriving in another world and a wonderful companion for us and our lives.

With this inner intention, I also create individual and exclusiv photo art on behalf of companies and private individuals.

I create a draft in advance, which I discuss with my customers.

I use a special program to show what the picture looks like on the wall and advise which size of the picture, type of print and frame are suitable for the individual room situation.

All artworks here on the exhibition and in my portfolio on the website are limited print editions and can be reduced or enlarged in size while maintaining the same format. Advice in framing and print options is included.

I would be happy to make a non-binding offer. My works of art are sold and delivered worldwide, for example in Singapore and Hawaii.
